

Zack Roeth

Hi my name is Zack,

I started work with IKOT in 2018 on a on and off basis, but began consistent work in July 2019. I have a real interest in IT, movies and drama/acting. I'm using my IT skills to undertake a project at IKOT which is to convert all paper files into a digital format.

I enjoy the IKOT work environment because the other team members are always happy to help if I need it and the workplace environment is nice and relaxing. I like the work that I do as it's in my field of interest and enables the other staff to better perform their duties efficiently. I'm also contributing to making IKOT more environmentally friendly by eliminating the use of paper and plastic from the business.

I have recently finished college, and this is my first ever job. My favourite subjects in college was Technical Theatre Production and a VET course which was a Cert II in Creative Industries. I'm planning on commencing TAFE studies in 2020 focusing on IT related subjects.

I look forward to meeting you and welcoming you to the Independent Kids Family!"
